## at work

Attendees enter a tropical South Seas paradise the moment they step through The Mirage's front door. Just inside the entrance is a lush and verdant rainforest housed under a 90-foot-high dome, complete with palm trees, cascading waterfalls, lagoons, hundreds of fresh orchids, and bromeliads. The tropical decor continues throughout the resort, providing an exotic getaway complemented by first-rate convention and meeting facilities and services. Of course, the Las Vegas Strip is also right outside the door.

Versatile and beautiful, the 170,000-square-foot convention complex at The Mirage can accommodate any single event of up to 8,650 people. All space is ground level, set off from the rest of the resort, and features high-tech amenities. The 90,000-square-foot pillarless Mirage Events Center can be divided into several different configurations and features 30-foot ceilings, multiple freight docks, and a private access road. Also within the complex are two ballrooms—the 40,000-square-foot Grand Ballroom with recessed stage and the 10,573-square-foot Montego Ballroom—as well as a 24-seat executive boardroom with built-in video and teleconferencing capabilities, 27 meeting rooms, and three courtyards.

The resort features an in-house audiovisual services department and a separate technical services department for one-stop shopping for exhibitor/trade show needs, such as staging, lighting, broadband Internet connections, and more. A dedicated events staff coordinates program details.
